Burton Manor Quarterly Quality Improvement Report (July - Sept 2024)

Commitment to Quality Improvement

Burton Manor, part of Primacare Living Solutions, upholds a transparent and collaborative approach to continuous quality improvement (CQI). By engaging staff, residents, and families in quality teams, we ensure diverse perspectives on enhancing care and practices.

As an RNAO Best Practice Spotlight Organization (BPSO), we proudly became a zero-restraint community in 2024, implementing clinical pathways in areas such as admission, delirium, pain management, falls prevention, and a palliative approach to care. Additionally, our three-year CARF Accreditation, earned in February 2024, reflects our dedication to meeting high standards. 2024 – 2025 Quality Improvement Plan Objectives

Burton Manor has outlined clear objectives in our Quality Improvement Plan for 2024-2025, aiming to:

- Decrease Emergency Room visits from the current rate of 18.70 to 17.0.
- Reduce the percentage of residents without a psychosis diagnosis receiving antipsychotics from 16.4% to 15.0%.
- Maintain the falls rate at 10% or below.
- Enhance resident and family satisfaction to achieve a rate of 65% or higher.

Key Strategies and Achievements

Measurement and Monitoring:

- ✓ Monthly indicator reviews with Professional Advisory and Quality Council.
- ✓ Chart reviews for antipsychotic medication in collaboration with interdisciplinary teams.
- ✓ Trend analysis of Behavioral Support Team (BSO) and pharmacy data to improve medication management.
- ✓ Monitoring Emergency Department visits with physicians and nursing teams.

Enhanced Staffing:

- ✓ Increased staff-to-resident ratios (Charge Nurses and PSWs at 1:6).
- ✓ Full-time Nurse Practitioner and expanded physician coverage.
- ✓ New hires include a Quality and Risk coordinator , Social Worker, Social service worker , Education Coordinator, RAI Coordinator, and additional therapy aides such as Music therapy and complimentary therapy .

Falls Prevention:

- ✓ Comprehensive fall risk assessments and tailored interventions (e.g., high-low beds, hip protectors).
- ✓ Regular medication reviews for high-risk residents.
- ✓ Monthly reviews of falls data against CIHI benchmarks.

Resident-Centered Care:

- ✓ PoET Project: Ensures care aligns with residents' preferences through structured discussions.
- ✓ Robust palliative care services provide dignity and comfort at the end of life.

Resident and Family Satisfaction

The 2024 satisfaction survey results were shared with Family and Resident Councils. Resident and family satisfaction survey was discussed at Resident council on Dec 9th 2024 and on Dec 6th, 2024, in family council. Key feedback were discussed in the Quality Action Plan, reviewed in meetings with councils, staff town halls, and departmental discussions.

Quality Improvement Oversight

The Quality Improvement Committee ensures alignment with regulatory standards and strategic goals. Responsibilities include:

- ✓ Developing and monitoring the annual quality plan.
- ✓ Analyzing trends and critical incidents to drive improvement.
- ✓ Extending quality initiatives to the broader community.

Burton Manor remains steadfast in its commitment to enhancing resident care through collaboration, strategic initiatives, and adherence to high-quality standards. This quarterly report highlights the progress made in July - Sept 2024, showcasing our dedication to achieving outlined objectives and improving outcomes. We continue to foster an environment of excellence and compassion.
