Meet One of Our Amazing Team Members, Saloni Kaushik!

Getting settled in my role as Infection Control Lead at Henley Place has been an exciting transition, made easier by the fantastic staff and welcoming leadership team here at the home. Every day, I work to monitor infections in the home, track trends over time, and make changes to our processes to make the home safer for residents and staff alike. So far, despite the challenges that come with the respiratory outbreak season, I've seen the Henley Place team come together to protect our residents and each other, and I'm excited to be a part of this great team.

Outside of work, I love spending time with my cats, reading novels, and rock climbing. With a background as an RPN, I aim to bring an attitude of collaborative teamwork and continuous learning to my role, making sure to take on knowledge from different areas to improve as an Infection Control Professional. I look forward to growing and learning

What you do is heart work. 
Thank you for all you do!
